

# SIMPLY THE FINEST: ECO SERIES GARAGE DOORS

## ENHANCING YOUR LIFESTYLE WHILE SUPPORTING YOUR ENVIRONMENTAL SENSIBILITIES.

Whether the look you love is the enchantingly casual warmth of a rustic style or a more time-honored traditional style, you can be sure that Ziegler Eco Series Doors will perfectly complement your home.

Years of industry experience have enabled Ziegler to combine the perfect blend of raw materials and hardware to ensure smooth operation complete with a lifetime warranty. Choose one of our designs or create your own.

Rough Rustic - stained

Smooth Traditional - stained

Our Eco Series Doors are made with the goal of assisting you in creating an alluring, distinctive look while giving you the assurance that you've done your part to "Go Green". Ziegler Eco Series Garage Doors are constructed of recycled wood product. The finished door is sturdy, reliable, and will stand the test of time.

## DOOR CONSTRUCTION    DECORATIVE HARDWARE

Our hand-forged hardware has a unique couture design which has been influenced from past generations around the world. Samples of our decorative iron hardware, shown below, bring the finishing touch.

Ziegler Eco Series Garage Doors are made with superior craftsmanship. Our methods of construction mean Eco Series Garage Doors are resistant to cracks and splits caused by climate changes. With an Eco Series door, you will enjoy the rich, dynamic look of wood and the strength of steel.

## GLASS OPTIONS

- Clear Plain
- Tinted

The Ziegler Family has been manufacturing garage doors in our plant for over 40 years and has continued to improve our product, based both on research and on-field experience with materials, design, and quality components. The culmination of our experience ensures that our customers are purchasing a garage door unsurpassed in quality, performance, and appearance.

## YOUR VISION, OUR EXPERIENCE.

We've spent years perfecting the manufacture of our Eco Series doors to make the most effective and efficient use of materials and time. Because of our commitment to preserving our resources, Ziegler Eco Series Garage Doors are constructed of recycled wood product and warranted against cracking, splitting, or delaminating. The finished door is sturdy, reliable, and will stand the test of time.

## TRADITIONAL SERIES

**CLASSIC LINES, SYMMETRY, PROPORTION:  
THE PERFECT FINISHING TOUCH TO ENHANCE THE BEAUTY  
OF YOUR HOME**

Whether your home is a new construction or you're upgrading your current garage door, Ziegler Eco Series Traditional Style Doors will enhance both your home's distinctive appeal and its value. Arguably one of today's most popular decorating themes, the traditional style speaks of the comforting elegance of grander times. Truly American, this style's pedigree relies on the fine woodworking of early American craftsmen and architects.

Traditional Eco Series Doors perfectly replicate the wood look and smooth finish the craftsmen of yesteryear created. Your door's classic lines and predictable symmetry will add to your home's elegance and sophistication. The Eco Traditional Series - built to stand the test of time.

*"The standard in quality and craftsmanship."*

The range of color choices available are the polish that communicate a refined, yet abundant lifestyle while at the same time speak of personal warmth and bring a sense of comfort to your mind.

Just as the Traditional Style itself has stood the test of time, your Ziegler Traditional Eco Series Doors are built to withstand weather, traffic, and normal wear and tear for years to come.

*"Classic and timeless elegance."*

## SPANISH COLONIAL SERIES

**SIMPLE LINES, CHARM, RUGGED RELIABILITY:  
PERFECTLY AT HOME IN THE OLD WORLD WITH THE MODERN  
CONVENIENCE OF THE NEW**

With its picturesque invitation to escape from the fast-paced world in which we live to the simpler times of rural life in the Old World, Ziegler Eco Series Rustic Spanish Colonial Style Doors perfectly complement the inviting warmth of your home's style. Part of the rustic charm is created through an emphasis on textures such as hand-hewn beams or natural stone.

The deep, embossed wood grain of Eco Series Rustic Spanish Colonial Style Doors creates the rough, handmade appearance that at once communicates both a homey appeal and solid reliability. At Ziegler Doors, that reliability is part of our service. We know our customers desire both aesthetics and functionality.

Most of our Rustic Spanish Colonial Style Doors rely on the simple lines so closely associated with this style. Crossbucks, initially used as a stabilizing factor and now almost a signature of the style, are available in both horizontal and diagonal configurations.

Heavy, hand-forged iron hardware is available to complete the distinctive appearance of your door.

*"Embellished with authentic hand-crafted iron work."*

## EUROPEAN SERIES

**SUBTLE, WARM, ROMANTIC AMBIENCE:  
AN AMERICAN FAVORITE WITH COLORS THAT REFLECT THE  
SEA, SKY, AND EARTH**

Images of shuttered windows and high, steep hip roofs against the rolling hillsides of rural Europe inspire the subtle, warm, romantic ambience of French Country, Mediterranean, and Tudor style homes.

Ziegler Eco European Series Style Doors focus on simplicity and understatement, creating a cozy charm that is welcoming. These doors can perfectly match the wood accents in your home to enhance its rural, casual appeal. Our antique distressing replicates the hand-hewn rustic look of old world Europe.

Whether it is the all important entryway or in the arched doors and windows or in the wrought-iron embellishments, attention to detail and proportion is what creates the seductive allure for which the European style is known.

Dark, rich colors, dense hardwoods, and decorative iron hardware allow these doors to facade some of the most luxurious homes in the world.

*"Accentuated with hand-hewn antique distressing."*
